Number 1

Editorial	i	
S. Bonnamy, A. Oberlin and F. Behar	1	Geochemical study of a series of biodegraded oils: Microtexture and structure of their coked asphaltenes
F. Behar and M. Vandenbroucke	15	Chemical modelling of kerogens
Nicola Senesi, Ciro Testini and Teodoro M. Miano	25	Interaction mechanisms between humic acids of different origin and nature and electron donor herbicides: A comparative IR and ESR study
Patrick G. Hatcher	31	Chemical structural studies of natural lignin by dipolar dephasing solid-state ^{13}C nuclear magnetic resonance
M. C. Kennicutt II, C. Barker, J. M. Brooks, D. A. DeFreitas and G. H. Zhu	41	Selected organic matter source indicators in the Orinoco, Nile and Changjiang deltas
Book Review Kenneth Mopper	53	"Organic Geochemistry of Natural Waters", by E. M. Thurman
1986 Reviewers	55	
Addendum	56	
Announcements	57	

Number 2

Alfons V. Larcher, Robert Alexander and Robert I. Kagi	59	Changes in configuration of extended moretanes with increasing sediment maturity
Z. Aizenshtat, Y. Rubinszstain, P. Ioselis, I. Miloslavski and R. Ikan	65	Long-living free radicals study of stepwise pyrolyzed melanoidins and humic substances
William H. Orem and Patrick G. Hatcher	73	Solid-state ^{13}C NMR studies of dissolved organic matter in pore waters from different depositional environments
Greta M. Eskenazy	83	Rare earth elements and yttrium in lithotypes of Bulgarian coals
Andrew H. Gillam, Michael A. Wilson and Philip J. Collin	91	Structural analysis of sea loch sedimentary humic substances by ^{13}C–^{1}H dipolar dephasing NMR
J. Connan and D. Dessort	103	Novel family of hexacyclic hopanoid alkanes (C_{32}–C_{35}) occurring in sediments and oils from anoxic paleoenvironments

M. Balabane, E. Galimov, M. Hermann and R. Létolle — 115 — Hydrogen and carbon isotope fractionation during experimental production of bacterial methane

Announcements — 121

Number 3

Kevin A. Thorn, Cornelius Steelink and Robert L. Wershaw — 123 — Methylation patterns of aquatic humic substances determined by ^{13}C NMR spectroscopy

Keith D. Bartle, Alan Pomfret, Amanda J. Pappin, Derek G. Mills and Hunay Evliya — 139 — Analysis of methylated humic acids from fossil fuels by size exclusion chromatography and NMR

Rohinton A. Noble, Robert Alexander and Robert Ian Kagi — 151 — Configurational isomerization in sedimentary bicyclic alkanes

Ganjavar Khavari Khorasani — 157 — Novel development in fluorescence microscopy of complex organic mixtures: Application in petroleum geochemistry

Fan Zhao-an and R. P. Philp — 169 — Laboratory biomarker fractionations and implications for migration studies

Jeffrey L. Means and Norman Hubbard — 177 — Short-chain aliphatic acid anions in deep subsurface brines: A review of their origin, occurrence, properties, and importance and new data on their distribution and geochemical implications in the Palo Duro Basin, Texas

B. M. Krooss and R. G. Schaefer — 193 — Experimental measurements of the diffusion parameters of light hydrocarbons in water-saturated sedimentary rocks—I. A new experimental procedure

M. G. Fowler and A. G. Douglas — 201 — Saturated hydrocarbon biomarkers in oils of Late Precambrian age from Eastern Siberia

L. Wünsche, F. O. Gülaçar and A. Buchs — 215 — Several unexpected marine sterols in a freshwater sediment

Note

Keith W. Dunham and Philip A. Meyers — 221 — Straightchain geolipids of deep-sea sediments: Comparison of two extraction procedures

Book Review

John T. Gupton — 229 — "Chemistry of the Monoterpenes: An Encyclopedic Handbook", by William F. Erman

Announcements — 231

Number 4

Joseph A. Curiale — 233 — Steroidal hydrocarbons of the Kishenehn Formation, northwest Montana

R. Hayatsu, R. E. Botto, R. G. Scott, R. L. McBeth and R. E. Winans — 245 — Thermal catalytic transformation of pentacyclic triterpenoids: Alteration of geochemical fossils during coalification

Kimitaka Kawamura, Ryoshi Ishiwatari and Kazuko Ogura — 251 — Early diagenesis of organic matter in the water column and sediments: Microbial degradation and resynthesis of lipids in Lake Haruna

Michael A. Wilson, T. Vincent Verheyen, Anthony M. Vassallo, Robert S. Hill and Geoff J. Perry — 265 — Selective loss of carbohydrates from plant remains during coalification

J. A. Leenheer, M. A. Wilson and R. L. Malcolm — 273 — Presence and potential significance of aromatic-ketone groups in aquatic humic substances

Roger E. Summons — 281 — Branched alkanes from ancient and modern sediments: Isomer discrimination by GC/MS with multiple reaction monitoring

Keith A. Kvenvolden, John B. Rapp, Margaret Golan-Bac and Frances D. Hostettler — 291 — Multiple sources of alkanes in Quaternary oceanic sediment of Antartica

Earl W. Baker, J. William Louda and Wilson L. Orr — 303 — Application of metalloporphyrin biomarkers as petroleum maturity indicators: The importance of quantitation

Orest E. Kawka and Bernd R. T. Simoneit — 311 — Survey of hydrothermally-generated petroleums from the Guaymas Basin spreading center

Announcements — 329

Number 5

A SELECTION OF PAPERS FROM THE 2ND ANNUAL MEETING OF THE SOCIETY FOR ORGANIC PETROLOGY

Houston, Texas
7–9 November 1985

Editorial — v

Introduction — vi

David C. Glick and Alan Davis — 331 — Variability in the inorganic element content of U.S. coals including results of cluster analysis

Richard D. Harvey and Philip J. DeMaris — 343 — Size and maceral association of pyrite in Illinois coals and their float-sink fractions

C. Hartman-Stroup — 351 — The effect of organic matter type and organic carbon content on Rock–Eval hydrogen index in oil shales and source rocks

H. B. Lo — 371 — A quantitative fluorescence technique for evaluating thermal maturity: Instrumentation and examples

R. Sassen, C. H. Moore and F. C. Meendsen — 379 — Distribution of hydrocarben source poential in the Jurassic Smackover Formation

Carolyn L. Thompson-Rizer — 385 — Some optical characteristics of solid bitumen in visual kerogen preparations

Rui Lin, Alan Davis, D. F. Bensley and F. J. Derbyshire — 393 — The chemistry of vitrinite fluorescence

Extended Abstracts

F. T. C. Ting — 403 — Optical anisotropism and its relationship with some physical and chemical properties of coal

J. T. Senftle and S. R. Larter — 407 — Comparative geochemistry of vitrinite kerogens from Carboniferous and Tertiary provinces

Lloyd M. Wenger and Donald R. Baker — 411 — Variations in vitrinite reflectance with organic facies—Examples from Pennsylvanian cyclothems of the Midcontinent, U.S.A.

Abstracts

Gary A. Cole, Henry I. Halpern, Robert A. Sedivy and Richard J. Drozd — 419 — Relationship between sediment thermal maturity and reservoired oils within Ohio

Charles R. Landis, John R. Crelling, Gregory W. Sullivan, Matthias W. Pleil and Walter L. Borst — 423 — Results of laser-induced fluorescence of organic materials

Jeffrey Ross Levine — 425 — Characteristics and origin of fracture-hosted impsonite, Quebec City area, Canada

Jack D. Burgess — 427 — Mud Lake, a modern analog of oil shale deposition in Florida

A. D. Cohen, R. Raymond Jr, L. M. Archuleta and D. A. Mann — 429 — Preliminary study of the reflectance of huminitic macerals in recent surface peats

Corrigenda — 431

Announcements — 432

Number 6

C. J. Boreham and T. G. Powell — 433 — Sources and preservation of organic matter in the Cretaceous Toolebuc Formation, eastern Australia

Peter D. Nichols, Carol A. Mancuso and David C. White — 451 — Measurement of methanotroph and methanogen signature phospholipids for use in assessment of biomass and community structure in model systems

John K. Volkman, John W. Farrington and Robert B. Gagosian	463	Marine and terrigenous lipids in coastal sediments from the Peru upwelling region at 15°S: Sterols and triterpene alcohols
John E. Zumberge	479	Terpenoid biomarker distributions in low maturity crude oils
Raymond Bonnett and Richard P. C. Cousins	497	On the metal content and metal ion uptake of botanically specific peats and the derived humic acids
Carol Arnosti and Peter J. Müller	505	Pyrolysis–GC characterization of whole rock and kerogen-concentrate samples of immature Jurassic source rocks from NW-Germany
P. A. Cranwell, G. Eglinton and N. Robinson	513	Lipids of aquatic organisms as potential contributors to lacustrine sediments—II
L. R. Snowdon, P. W. Brooks, G. K. Williams and F. Goodarzi	529	Correlation of the Canol Formation source rock with oil from Norman Wells
R. P. Philp and Fan Zhaoan	549	Geochemical investigation of oils and source rocks from Qianjiang Depression of Jianghan Basin, a terrigenous saline basin, China
Robert T. LaLonde, Louis M. Ferrara and Michael P. Hayes	563	Low-temperature, polysulfide reactions of conjugated ene carbonyls: A reaction model for the geologic origin of S-heterocycles
K. F. M. Thompson	573	Fractionated aromatic petroleums and the generation of gas-condensates
Bradley J. Huizinga, Eli Tannenbaum and I. R. Kaplan	591	The role of minerals in the thermal alteration of organic matter—III. Generation of bitumen in laboratory experiments
H. L. ten Haven, M. Baas, J. W. de Leeuw, J. M. Maassen and P. A. Schenck	605	Organic geochemical characteristics of sediments from the anoxic brine-filled Tyro basin (eastern Mediterranean)
Announcements	613
